

# BISHOP'S LANDING RV RESORT

## Waterfront resort with plenty of amenities and activities

Lake Conroe is the perfect backdrop for Bishop's Landing RV Resort in Willis, Texas. This large lake, 21 miles in length, offers clear water for recreation including fishing, swimming, and water skiing. From the resort, drop your fishing line and land the fish of your dreams, launch your boat at the ramp into Lake Conroe, or rent a canoe and explore. With 2,000 feet of waterfront at the resort, there's a calm cove for jet skiing and boating.

You have your choice of spacious RV sites shaded by beautiful oak, elm, and pecan trees, or you can park your RV at the resort's private lakeside cove. Forty-one shady acres and several of the campsites lie along the lakeside property. Other RV sites have views of the northwestern shore of Lake Conroe. Full hookups (30 and 50 amp electric, water, and sewer) and picnic tables are included. If you've traveled without your RV, rent a hilltop log cabin that features a master bedroom, large sleeping loft, and large deck.

A family atmosphere pervades the resort, says Owner Paula Bishop. "We bought the park 16 years ago and raised three

children at the park helping us keep the maintenance up and building improvements and amenities."

If you prefer an active lifestyle, play at the many sports amenities, which include miniature golf, tennis, basketball, volleyball, horseshoes, baseball, and a playground. Relax at the adult and kiddie swimming pools and try out the water slide.

If you're hankering for big-city life, head to Houston—about an hour away. From boat tours on Buffalo Bayou to one of the top children's museums in the U.S., Houston offers attractions that appeal to adults and children alike. Explore Houston's free attractions. The Houston Arboretum and Nature Center has five miles of trails and many interactive exhibits.
