

WALLY WORLD RIVERSIDE RESORT

A world of fun located right on the banks of the Mohican River

A visit to Wally World Riverside Resort is a lot less stressful, more beautiful, and more fun than the Griswold family had when they finally made it to Walley World theme park in National Lampoon's *Vacation*. In fact, it's a world apart. Located in an area referred to as "Ohio's Largest Outdoor Complex," it's a huge playground for big kids as well as young kids, too.

Wally World Riverside Resort in Loudonville is situated along the historic Wally Road Scenic Byway in the heart of Ohio's Amish country. With its location and access to many area attractions, Wally World is the perfect vacation destination. Visit the Amish attractions and "The Little Switzerland of Ohio" in Sugarcreek, or explore the heart of Amish Country in Berlin, kayak or canoe down the Mohican River, hike trails in the neighboring state parks, or just relax by the water or your campfire. There's so much to see and do you'll want to come back again and again!

One of the best parts about camping at Wally World Resort is the fact that the campground is located right on the river.

The riverside campground means that you get to see the Mohican River directly from most campsites. Beautiful scenery makes camping at Wally World Riverside Resort all the more fun. Great amenities add to your experience. Feel safe with 24-hour gated security. Pick up any items you may have forgotten at the general store. Meet new friends in the game room, ball courts, playing horseshoes or mini golf. Enjoy a dip in the pool. Activities directors keep you busy with planned activities and theme event weekends.

If further exploration of Ohio is what you're looking for, then Wally World's location is perfect! Located halfway between Columbus and Cleveland, there is a world of sightseeing opportunities open to you.
